EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- At the first line of Page 3, replace "DETAILED DESCRIPTION" with "SUMMARY OF THE INVENTION".
- In paragraph [0015], replace lines 10-11 with the following:
"having addresses that are not mapped into the addressing space of each processing element."

DETAILED DESCRIPTION

Figure 1A is a block diagram of a cluster of nine interconnected image signal processors"

- Claims 14-26 are cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Sharing registers among a plurality of processors and permitting the processors to communicate with each other through the registers was well known at the time of the invention. In fact, each of the three references teaches all of the features of independent claim 1, with one exception. In the context of a shared communication register system shared among a plurality of processing elements, the limitation that the plurality of registers *is mapped to the addressing space of each processing element of the plurality of processing elements* was not taught or suggested in any of the cited references, taken alone or in combination with each other. Consequently, claims 1-13 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185.
